

Specialists Units

Auslan

In Term 4, Grades 3 & 4 will be continuing with descriptions of objects and people. We will extend upon occupations and community signs and expand on food vocabulary.

Occupations

Lesley Dickins

Music / Performing Arts

This term, 3/4's will focus on two distinct areas. Wakakirri, will be performed for the school concert and consequently students will continue to rehearse their Wakakirri performance. Furthermore, the guitar will be explored in this term's classes as students are already well rehearsed in their concert item. Please note that the costume that was brought to school for Wakakirri is the same costume that can be brought for the end of year concert.

John Koutsonikolas

Visual Arts

Throughout term 4, Construction and Printing will be a focus for the term for the children in Grade 3/4. The children will discover how puppets are used for theatre and play and will make a 'sock' puppet. Printing techniques will be further explored with the children using Styrofoam and rubbings to create a printed image, plus they will make their own calligraph. Artwork relating to Christmas / cultural celebrations will incorporate learned skills and techniques to finish off the year.

Deb Morgan

Sustainability:

Grade 3/4 inquiry unit is "Living Things", students learn about how all living creatures depend on the environment and each other to survive.

This term we look forward to the harvesting of vegetables from the school's Vegetable Garden. Students have already taken advantage of the planting and maintaining seedlings of carrots, beetroot, tomatoes, lettuce and cabbage plants. We look forward to harvest day later this term.

Wal Raghdo

Physical Education

During term four the grade 3/4 students will be developing their knowledge of tactics and rules of various team-based games and activities, with a particular focus on the games of basketball and badminton. Like term one our lessons will have a fitness based focus and the students will have the opportunity to participate in the 20m shuttle run test to see if their fitness has improved. The students will then have the opportunity to set achievable short-term goals in order to live an active and healthy lifestyle. Our grade 3/4 students will have the opportunity to utilize our wonderful basketball facility and will be learning the skills required to dribble the ball through obstacles and will learn the correct technique for shooting hoops.
